EVERGREEN NURSERY

KATZENBERGER BROS.,

FOSTERS, MICH.

Phone, Rural 181-F3

JOSEPH KATZENBERGER

PHILIP KATZENBERGER

Greeting:—

We take pleasure in presenting to our patrons, this catalogue for 1928. No business can have constant growth unless it is retaining its old trade, and old customers are not retained unless they are being pleased. For this is the most striking proof that we are pleasing them. You are certain to find in this list many items that you will want. We have a good line of Nursery stock and cordially invite you to call at our Nursery and inspect it. Mail orders and phone calls will receive our prompt attention.

Sincerely yours,

JOSEPH KATZENBERGER,
PHILIP KATZENBERGER.

Prices quoted in this catalogue hold good until June 1st only.

Our Nursery may be found two miles north of Fosters, one mile east of Sheridan road, and about seven miles south of the Town Clock. We have road signs for your convenience, and also a map on last page.

Postage, Express or Freight charges must be paid by the purchaser.

Guarantee:—We guarantee to furnish live and healthy trees and plants, but cannot assume the responsibility that belongs to the purchaser. If plants and trees are satisfactory, plant them at once or heel them in in a moist, shady place. If for any reason they are not satisfactory, they must be returned at once for exchange, or your money will be promptly and cheerfully refunded. Causes of failure are varied and many times beyond our observation and control.

EVERGREENS

ARBOR VITAE

American Arbor Vitae or Tree of Life—Is an evergreen for a great many uses. As a windbreak it has no superior; as a formal hedge it can not be beat. It will stand pruning and shearing as no other plant; as a screen for outbuildings, fences and other unsightly objects it is as good as the best.

Arbor Vitae, 1½—2 ft.	\$1.50
Arbor Vitae, 2—3 ft.	2.00
Arbor Vitae, 3—4 ft.	2.50
Arbor Vitae, 4—5 ft.	3.50

Pyramidal Arbor Vitae (Thuja Pyramidalis)—The most compact and upright of the species. Foliage is dark green and retains its color well

Pyramidal Arbor Vitae, 1½—2 ft.	\$5.00
Pyramidal Arbor Vitae, 2—3 ft.	6.00
Pyramidal Arbor Vitae, 3—4 ft.	7.00
Pyramidal Arbor Vitae, 4—5 ft.	8.00

Arbor Vitae (Hovey's Golden)—Compact, fan-shaped. The foliage is a golden yellow. 1½—2 ft.

\$2.50

Arbor Vitae (Globosa)—Forms a short, round, bushy tree.

1½—2 ft.	\$3.00
---------------	--------

Tom Thumb—A dwarf, globe-shaped evergreen with fine, dark green foliage.

1½ ft.	\$1.50
-------------	--------

JUNIPER

Irish Juniper—Upright, finely cut foliage, very formal and dense.

1½—2 ft.	\$3.00
2—3 ft.	4.00
3—4 ft.	5.00

Pfitzer Juniper—A handsome, bushy tree with horizontal branches and blue-green foliage. Fine for borders and evergreen beds.

1—1½ ft.	\$2.50
---------------	--------

Prostrate Juniper—A low, spreading evergreen, rarely growing to a greater height than three feet. Leaves are sharp-pointed, gray-green, marked on the upper surface by broad, white bands, light silvery beneath.

1—1½ ft.	\$4.00
---------------	--------

Sabina Juniper—A low, much-branched evergreen. It is an excellent border plant. Its berries are blackish purple or dark violet in color. It is also desirable as a low tree in foundation groups and beds of evergreens. It does well in smoky atmospheres.

1—1½ ft.	\$3.50
---------------	--------

Retinispora Plumosa Aurea (Japanese Golden Cyprus)—It has a very fine, reddish-green, and yellow foliage. Its contrasting colors make it an excellent tree for mass planting or for specimen use.

12—15 inches.	\$1.50
--------------------	--------

FIR

Concolor Fir—Foliage is a grayish blue. The new growth is of silvery whiteness and very beautiful. 1½—2 ft.

\$3.00

Douglas Fir—The typical form of the tree is an open, broad, sharp-pointed pyramid; the lower branches are drooping, the higher ones trend upward, the blue and silver foliage is characteristic.

12—18 inches	\$2.00
2—3 ft.	3.50

PINE

Austrian Pine (Pinus Nigra) —Its leaves are two in a sheath, straight and slender, from four to five inches long, and of such deep, rich green color that it is known in some parts of the world as the "Black Pine."	
12—18 inches	\$1.50
Jack Pine (Pinus Bankasiana) —A fast growing, angular pine. A native of the northern woods. It succeeds on light soils. It has light green foliage.	
2—3 ft.	\$0.75
3—4 ft.	1.00
4—5 ft.	1.50
Mugho Pine (Dwarf Mountain Pine) —True dwarf form; the color is deep green in summer and winter; it is free from insects or pests of any kind. It will grow in almost any location and with annual shearing can be kept as small as desired. The old definition, "Short and stout, and round about," fits the Mugho Pine.	
8—10 inches	\$2.00
10—12 inches	2.50
Ponderosa Pine (Pinus Ponderosa Scoloporum) —Sometimes called the Bull Pine on account of the heavy, massive needles which are from six to ten inches long, of deep green color on the surface and bluish white underneath. It grows tall and upright, a well-rounded, pyramidal shape.	
12—18 inches	\$2.00
Scotch Pine (Pinus (Sylvestris) —This well-known tree, the rapidity of growth, its heartiness and facility with which it may be grown on almost all soils, has rendered this tree a great favorite.	
1½—2 ft.	\$1.00
2—3 ft.	1.50

SPRUCE

Black Hill Spruce —In color the Black Hill Spruce varies from a delicate bluish tint to deep green. The tree is compact and rather bushy.	
12—18 inches	\$2.25
Colorado Blue Spruce —The glory of the Blue Spruce is its foliage, which is an intense steel blue. It has created a sensation throughout the country. 12—18 inches	
	\$7.00
Hemlock Spruce —The slender branches and the fine and ample foliage, together with the drooping habit, make the Hemlock an object of interest.	
1—1½ ft.	\$2.50
1½—2 ft.	3.00
2—3 ft.	4.00
3—4 ft.	5.50
4—5 ft.	7.00
Norway Spruce —The Norway Spruce is a most popular tree for many situations. Tall, with spreading branches and a most beautiful object against the landscape.	
1—1½ ft.	\$1.00
1½—2 ft.	1.50
2—3 ft.	2.00
3—4 ft.	2.50
4—5 ft.	3.00
White Spruce —A native of America; it will grow on a great variety of soils, bears crowding well and also stands severe trimming. It is of compact growth with light, frosty green foliage, slightly tinged with blue. 12—18 inches	
	\$1.25

DECIDUOUS SHADE TREES

American White Elm —As a shade tree or for planting on the street or lawn it has no superior.	
8—10 ft.	\$2.50
10—12 ft.	3.00
2—2½ in. caliper	5.00
Camperdown Elm —A small tree with curious, spreading branches and dense dark green foliage. Grafted 2-year heads	
	\$6.00
Ash Leaved Maple —Also called Box Elder. A native tree of rapid growth. Is well adapted to a great variety of soils and locations.	
6—8 ft.	\$1.25
8—10 ft.	1.50
Norway Maple —Akin to our Hard or Sugar Maple. Hardy, round-topped, with strong and spreading branches; deep green, broad foliage, giving a dense, deep shade and turning a golden yellow in the autumn.	
8—10 ft.	\$2.50
Soft or Silver Maple —A tree of rapid growth and somewhat irregular shape. The leaves are bright green above and silvery white beneath. The tree is very hardy and easy to transplant.	
6—8 ft.	\$1.50
8—10 ft.	2.00
10—12 ft.	2.50
1½—2 inch Caliper	3.50
Swedlery Maple —Very much like Norway Maple, with bright crimson foliage in early spring, which gradually changes to a purplish green later in the season. 6—7 ft., slightly branched	
	\$3.00
Weir's Cut-Leaf Maple —This beautiful tree has a drooping habit and finely divided foliage. It is a rapid grower and excellent lawn tree.	
7—9 ft.	\$2.00
Mountain Ash —Has clusters of yellowish flowers, followed by large clusters of crimson berrise. 5—6 ft.	
7—8 ft.	\$1.75
	2.50
Black Walnut —A very nice shade tree, and also valued for its nuts.	
3—4 ft.	\$1.00
Butter Nut —Also called White Walnut. A native, the nuts of which make a delightful pastime. Nice, straight, well-rooted trees.	
5—6 ft.	\$1.00
6—8 ft.	1.50
Horse Chestnut —Makes a highly ornamental shade tree. 3—4 ft.	
	\$1.00
Birch (White) —Has a beautiful, white body. It is very contrasting with other trees. 6—8 ft.	
8—10 ft.	\$1.50
	\$2.00
Cut-Leaf Birch —It has beautiful, finely cut foliage. 6—8 ft.	
	\$4.00
Catalpa Bungii —The top is grafted on four to six-foot stems, forming a umbrella-shaped head. Foliage is large and light green, and heart-shaped. 2-year heads.	
	\$2.50
European Larch —This tree is very beautiful in spring and summer with its soft, light green needles. 1½—2 ft.	
	\$1.00
Russian Mulberry —Has glossy green foliage and lots of berries.	
4—5 ft.	\$1.00
3—4 ft.	0.75
Carolina Poplar —A tall, fast-growing tree where quick shade is desired.	
6—8 ft.	\$0.50
8—10 ft.	0.75
Lombardy Poplar —A tall, slim, rapid-growing tree. 6—8 ft.	
8—10 ft.	\$0.75
10—12 ft.	1.00
	1.25
Teas Weeping Mulberry —A most hearty and graceful tree. Forms a perfect head with long, slender branches drooping to the ground.	
1-yr heads	\$4.50
Wisconsin Weeping Willow —A tree of graceful weeping habit. 5—6 ft.	
4—5 ft.	\$1.00
	0.75

DOUBLE FLOWERING TREES and FLOWERING SHRUBS

Bechetls Double —Flowering Crab. 3—4 ft.	\$1.50
Prunus Triloba —Double flowering plum. 3—4 ft.	\$1.50
Judas Tree (Red Bud) —A small-growing tree of irregular form with heart-shaped leaves covered with bright, pink blossoms early in the spring before the leaves appear. 3—4 ft.	\$1.25
Prunus Pissardi —Purple leaved plum. 3—4 ft.	\$1.50
Cydonia (Japan Quince) —Foliage bright green and glossy. Flowers are scarlet or rose and appear very early before the leaves. Each	\$0.50
Flowering Almonds —Almost the first shrub to bloom, with double pink flowers, like small roses. 2 ft.	\$0.75
3 ft.	1.00
Forsythea, Intermedia —These are pretty shrubs, with slender, drooping branches and yellow flowers in the spring, before the leaves appear. 2—3 ft.	\$0.50
Forsythea Fortuna (Golden Bell) —Is of upright growth with pendulous branches and bright green foliage. 3—4 ft.	\$0.50
Hydrangea Aborescens (Hills of Snow) —Are hardy shrubs of free-flower-habits. They bloom from midsummer until fall. 2—3 ft.	\$0.75
Hydrangea Paniculata Grandi Flora —Has large bunches of small, white flowers in cone-shaped formations, which turn pink in the fall. 2—3 ft.	\$0.75
Hydrangea Paniculata Grandi Flora —Same as above, except that it is in tree form. 3—4 ft.	\$1.25
Honeysuckle (Bella Albida) —White flowers followed by red fruit. Each	\$0.50
Honeysuckle (Red Tartarian) —Light red flowers, red fruit. Each	\$0.50
Snowberry —A fine shrub with pink blossoms and showy white fruit as large as cherries, which persist way into the winter. Each	\$0.50
Waxberry or Indian Currant —A hardy shrub with small flowers and showy red fruit lines the upper third of the drooping branches, which hang on until mid-winter. Each	\$0.50
Philadelphus Grandiflorus —A class of old but popular shrubs. The blossoms are large and simply cover the bush. The foliage at all times is bright. The plant is very hardy and satisfactory. 3—4 ft.	\$0.50
Philadelphus Coronarius —Of the same general habits, but growing less tall, and is covered in June with masses of white blossoms with golden yellow stamens and is delightfully scented. 3—4 ft.	\$0.50
4—5 ft.	0.75
Philadelphus Aureus (Golden Syringea) —This shrub grows very bushy, but less tall than the others and sports golden yellow foliage in contrast with the other kinds—12—18 inches	\$0.75
1½—2 ft.	1.00
Philadelphus Virginalis —A magnificent new variety moderately tall. the flowers are the largest, handsomest, and most sweetly fragrant of any known variety with the longest blooming season. 2—3 ft.	\$0.75
Snowball (Sterilis) —The common snowball which helps out so bravely for Decoration Day with its lovely white blooms. 2—3 ft.	\$0.75
Snowball (Japanese) —Erect, compact, growing 6 to 8 feet in height with purple tinted foliage of beautiful pattern spangled with perfect ovoid croyms of purest white in June. 2—3 ft.	\$0.75
Highbush Cranberry —Similar to snowball. Fruits are bright scarlet and persist from July until spring, mainly because the birds won't eat them. 3 ft.	\$0.75

SPIREA

Spirea, Van Houtti —The grandest of all Spirea. Is an ornament for the lawn at any season, but when in bloom is a complete fountain of flowers, the foliage hardly showing. Hardy and will grow any place except in shade. 3—4 ft.	\$0.50
4—5 ft.	0.75
Spirea, Anthony Waterer —A charming dwarf shrub, 2 feet high, with broad heads of small, pink flowers that bloom continuously from June until fall. Each	\$0.50
Spirea, Frobellei —Dwarf and similar, but somewhat taller than the Anthony Waterer, with brighter and broader foliage, blooms from July until September. Each	\$0.50
Spirea Opulifolia (Golden Leaved Spirea) —A good shrub on its own account, but is planted much in contrast with other shrubbery. The foliage at all times is bright yellow; the blossoms are white; and the seed capsules red, turning brown in the fall which makes this shrub very popular. 3—4 ft.	\$0.50
4—5 ft.	0.75
Golden Elder —Its golden yellow leaves contrast beautifully with other shrubs, flowers white in flat cymes, grows 8 to 12 feet in height. 2—3 ft.	\$0.50
Tamerix (Hispid) —Blooms bright pink, in terminal panicles, leaves bluish-green. The hardiest in the northern climate. 2—3 ft.	\$0.75
White Fringe —A very showy shrub with large, leathery, shiny leaves, and lace-like white flowers borne in graceful, drooping panicles. 2—3 ft.	\$1.50
Red Dogwood —Heavily branched and spreading, white flowers, followed by white berries lasting into winter, the bark is bright red and very striking, will do very well in the shade. 2—3 ft.	\$0.50
3—4 ft.	0.75
Weigelia, Rosea —A beautiful shrub that blooms in May and June, hiding the foliage with their masses of rose-pink trumpets or bell-shaped flowers, the most popular variety. 2—3 ft.	\$0.50
Weigelia, Varigated —Leaves broadly margined creamy white; flowers pink one of the most useful and choice varigated-leaved shrub. 2—3 ft.	\$0.75
Weigelia, Eva Roethke —The most distinct and one of the most attractive varieties; flowers are deep carmine red. 2—3 feet	\$0.75
Rhodotypus (White Kerria) —An attractive shrub with beautiful yellowish-green, corrugated foliage and large, single, white flowers followed by black berries. 2—3 ft.	\$0.75
Corchorus —A dwarf, varigated, silver-leaved bush with bright yellow flowers. 12—18 inches	\$0.50
Siberian Pea —A small shrub, it is covered with beautiful, pink, pea-shaped flowers in June. 2—3 feet	\$0.50
Lilacs —French double white. 2—3 feet	\$1.00
French double red. 2—3 ft.	1.00
French double purple. 2—3 ft.	1.00
Persian red. 2—3 ft.	0.75
Persian white. 2—3 ft.	0.75

HEDGE PLANTS

Ligustrum or Privet —This class of shrub has many varied uses, but is mostly planted for hedging, for which purpose they are unsurpassed.			
Armour River Privet (north) —Is hardy, being a native of northern China. It is suitable for planting anywhere. Each			
Per dozen	\$2.00	Per 100	\$20.00
California Privet —Has rich, glossy foliage which is nearly evergreen. Some seasons it retains the old foliage until the new has started to come out. It is a strong grower and requires several shearings in a season.			
12—18 inches			\$0.10
1½—2 ft.			12½
2—3 ft. Extra fine			0.15
Lodense Privet —As the name implies, "low and dense." Good foliage. Makes a very good hedge or can be used for specimen planting. Ea.			
Regel's Privet —Is a variety of Iodora and is the so-called flowering privet. The branches grow horizontal and bears small, white flowers, on lilac-like bunches, followed by black berries that persist a long time, even to spring. Regel's Privet will grow very well in shady places. Each			
Barberry Thunbergi (Japanese Barberry) —Dwarf growing, uniformly bushy and rounded in form, will stand pruning well for a formal hedge. numerous thorns on its branches and so forms a barrier for lawn protection and dividing lines. Its green foliage turns to rich autumn colors in fall.			
12—18 inches	\$0.25	Per 100	\$20.00
18—24 inches	0.30	Per 100	25.00
Barberry Red Leaf (New) —Its foliage in spring is a warm, bronzy red, and the heat of the summer intensifies its red brilliancy, a sunny exposure is necessary to bring out and retain its full red color.			
1-yr. plants, each			\$0.75

STATE DEPARTMENT OF AGRICULTURE

Certificate of Nursery Inspection

No. 876

This is to certify, that the Nursery stock of Evergreen Nursery, Katzenberger Bros., Fosters, Mich., has been examined and found to be apparently free from dangerous insects and dangerously contagious tree and plant diseases.

Herbert E. Powell, Commissioner.

This certificate to be void after September 15, 1928.

Bureau of Agricultural Industry,

E. C. Mandenberg,

A. C. Coon, Director.

In charge of Nursery and

Lansing, Mich., Sept. 16, 1927.

Orchard Inspection.

PLANTING DIRECTIONS

First—Dig deep and wide; keep the good top soil on one side and the poor sub-soil on the other.

Second—Fill in hole enough good soil, that if the plant is set thereon, the crown of the roots is slightly below the level of the ground, according to the size of the plant.

Third—Pack good soil around and under the roots, filling all empty spaces.

Fourth—If the soil is dry, use water freely to moisten and further help pack the soil.

Fifth—Fill in more soil and tamp.

Sixth—Fill up with loose soil and level off.

It is needless to say that all mutilated roots should have been trimmed and straggling ones cut back, the tops cut to balance the proportion of the tops to the roots.

Aside from a good watering in dry weather, frequent loosening of the surface with the hoe will be all that is necessary.

VINES and CLIMBERS

**Aristolochia (Dutchman's Pipe)**

Large, light green foliage, pipe-shaped, yellowish brown flowers. Each \$1.00

Akebia Quinata—Purple flowers and ornamental fruit. Foliage almost evergreen. Each \$0.50

Amelopsis Quinquifolia (American Ivy)—Fine for covering trellis, verandas and fences. Each \$0.25

Amelopsis Veitchi (Boston Ivy) Clings to brick and to stone walls. Foliage is handsome in summer, changing to scarlet in autumn. Each \$0.75

Begonia Trumpet Vine—It is a splendid climber, vigorous and hardy, with clusters of large, scarlet, trumpet-shaped flowers in August. Each \$0.50

Celastrus, Bittersweet—Handsome, glossy foliage and large cluster of orange-crimson berries, which, if gathered and dried, make beautiful winter decorations. Each \$0.50

Cinnamon Vine—Heart-shaped foliage, highly spice scented flowers and a very good climber. Each \$0.50

Clematis Jackmani—A most popular vine and justly so. Commences to show its large, purple flowers early in the season and continues to cover the vine with masses of blooms. Each \$0.75

Clematis Paniculata—This Japan Clematis is a hearty vine to cover trellis and in turn to cover itself with masses of little star-like flowers completely hiding foliage at a season when other vines refuse to bloom. Each \$0.50

Hall's Japan Honeysuckle—Flowers are intermingling of white and yellow and are very fragrant. It will grow in partial shade as on north side of buildings. Each \$0.50

Peas Everlasting—A hary perennial climber; the same as sweet-pears but lacks the fragrance. It grows 6 to 8 feet in height, colors pink and white. Each \$0.25

Polygonum (Silver-Lace Vine)—This is a quick growing vine. The small foliage is at all times fresh and shiny. It is covered in the late summer and fall with large sprays of small silvery white flowers. Each \$0.50

Wisteria—A handsome vine to cover trellis and pergolas. Has drooping clusters of pea-shaped flowers. Each \$0.75

FERTILIZER

We have on hand for the convenience of our customers, Sacco Fertilizers, with a guaranteed analysis of 4-12-4, which is a very suitable fertilizer for lawns, shrubbery, flowers and vegetables, or wherever a fertilizer is required. It is put up in containers of convenient sizes.

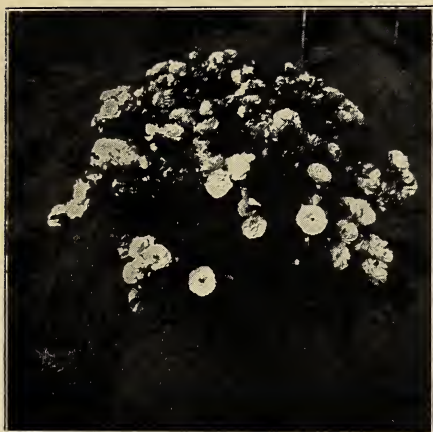

5 lb. pkg.	\$0.50	25 lb. bag	\$1.75
10 lb. pkg.	0.85	50 lb. bag	3.00
100 lb. bag			\$5.00
Lime —Pulverized lime stone for sweetening the soil.		10 lbs.	\$0.30
25 lbs.	\$0.50	50 lbs.	\$0.75
		100 lbs.	\$1.25

ROSES, HYBRID TEAS, and PERPETUALS

American Beauty, H. P. —The best known and most popular rose. Deep pink, of good form, large with exquisite fragrance. Each	\$0.75
Eugene Furst, H. P. —Color deep red, shaded crimson. A profuse bloomer. A most charming rose. Each	\$0.75
Frau Karl Druschki, H. P. —Snow-white, long, pointed buds, a large, full flower. Is a free and constant bloomer. Each	\$0.75
Gruss an Teplit, H. T. —Velvety crimson, blooming freely the whole season. Each	\$0.75
Hermosa, C. A. —A pleasing shade of clear pink. Ever-blooming. An old rose that will always be in demand. Each	\$0.75
Paul Neyron, H. P. —Deep pink, of large size, blooming all summer and more so in the cool month of September. Thornless branches. Each	\$0.75
Red Radiance, H. T. —A glowing crimson, free bloomer, of beautiful form, with sweet fragrance. Each	\$0.75
Sensation, H. T. —The finish suggests rich velvet, in color as scarlet-crimson deepened over all by glossy maroon. Each	\$0.75
Souvenir de Claudius Pernet, Per. —Its color is a definite, lovely sunflower yellow, deepening in the center, it retains its color indoors and outdoors, in bud and open bloom. Each	\$1.00
Ulrich Brunner, H. P. —Cherry red, its flower construction and habit is very pleasing and the color appealing. Each	\$0.75

CLIMBING ROSES and RAMBLERS

American Pillar —Flowers 3-4 inches across, apple-blossom pink with a large cluster of yellow stamens, followed by clusters of ornamental fruit. Each	\$0.50
Climbing American Beauty —The climbing form of that popular bush variety has strong, healthy foliage and good climbing habits. Each	\$0.75
Climbing Baby Rambler —A very strong grower with the same style of foliage and color as well known bush Baby Rambler. Each	\$0.75
Climbing Gruss an Teplitz —A perfect sheet of crimson when in bloom. Ea.	\$0.75
Crimson Rambler —The famous crimson clustered climber, fore-runner of a splendid class. Each	\$0.75
Dorothy Perkins —A beautiful shell-pink, foliage finer and smoother than Crimson Rambler. A rampant grower. Covers more verandas than any other variety. Each	\$0.75
Excelsa or Red Dorothy Perkins —A blood-red cluster rose. It has good, clean foliage and is a rapid grower. Each	\$0.75
Paul's Scarlet Climber —Has very large crimson-scarlet, semi-double flowers in great abundance. Said to remain in bloom longer than others. Each	\$0.75
Showers of Gold —Deep, golden yellow. Very double, free and lasting.	\$0.75
Silver Moon —Pure white, semi-double flowers with thick clusters of yellow stamens. Each	\$0.75
Veilchenblau, The Blue Rambler —Semi-double with yellow stamens. Each	\$0.75
White Dorothy Perkins —A counterpart to Pink Dorothy, except in color, which is pure white. Each	\$0.75

POLYANTHA or BABY ROSES

Baby Dorothy — Clear, brilliant pink, very fragrant, a constant bloomer.

Baby La Marne — Semi-double, bright salmon-rose at edges, rosy-blush inside, it blooms abundantly and continuously in bouquets of 15-40 flowers.

Catherine Ziemet — Produces pure white flowers in abundance with fragrance similar to Hyacinths.

Crimson Baby Rambler — The well-known original Baby Rambler. Deep crimson, freely blooming all summer.

Baby Roses, each \$0.75

TREE or STANDARD ROSES

These roses are grafted on 3½ ft. stems. This reveals all the foliage and all the bloom in a rounded clump at the top. We have them in three colors: red, pink, and white. Each

\$3.00

IRIS

Description: — (S) denotes the upper petals or standards. (F) denotes the lower petals or falls.

Alcazar (S) — Violet with bronze sheen. (F) Rich crimson with lighter veins.

Florentina Alba. — Pure white, sweet scented.

Gertrude—Deep violet blue and very fragrant.

Her Majesty (S)—Soft rose; (F) Deeper rose. Very attractive.

Isoline (S) — Lilac pink; (F) Purplish old rose. Extra fine.

Juanita — Clear blue, fragrant flowers, tall growing.

Madam Chereau—White, edge of petals fringed blue. A fine cut flower.

Pallida Speciosa—Very large, deep purple.

Reine Nixe—(S) White, very large. (F) Rich violet purple, narrow, white edge.

Loreley—(S) Light yellow; (F) Blue. A magnificent flower.

Iris, each \$0.25

HARDY PERENNIALS

**Canterbury Bells (Campanula)**

—an old favorite, large, bell-shaped flowers in mixed colors. Each

\$0.20

3 for 0.50

Larkspur (Delphinium)—Hardy

perennial with long, showy spikes of lovely shades of blue in early summer. We have them in mixed shades.

Each \$0.20 3 for \$0.50

Fox Glove (Digitalis) — Hand-

some plants that show large spikes of very ornamental flowers in early summer.

Each \$0.25 5 for \$1.00

Achilla (The Pearl)—A very

hardy garden flower. Blooms all summer and fall, small, pure white double blooms in loose bunches, fine for mixing with cut flowers. Each

\$0.15

4 for 0.50

Golden Measure —Large, fine, dark yellow, tall grower.	

Per dozen \$1.50

DAHLIAS

THE FLOWER FOR FALL

Spring is beautified by the Peony, summer would seem barren without the Rose. In like manner we have come to expect of autumn—the Dahlia.

SHOW DAHLIAS

This type is the most formal and perfect in shape, composed of short, stiff, numerous quills of varying character. They make excellent, compact bouquets and usually outlast the other types when cut.

A. D. Livonia—A warm, rose-pink, medium size, but a most perfect flower.

Arbella—Primrose yellow, tipped and shaded old rose and lavender. Very fine.

Bonny Blue—It is the nearest approach to a regular blue yet produced.

Cal Powers—One of the good show Dahlias. Petals opening back to stem, making a perfect ball, color a very delicate lilac-rose.

Cuban Giant—Very large, 6 to 7 inches across. Glowing crimson-shaded maroon. A tall, strong grower.

Delice—A warm tone of lilac-pink, overlaid on white, the full center shaded a deeper hue.

Dewey—American Beauty shaded maroon. A perfect ball.

Fire King—A thick, compact flower, velvety ruby red, with mottled bronze button center.

Grand Duke Alexis—A very large full flower, white tinged with a trace of lavender, when first opening.

Maud Adams—An early, free-blooming sort, white, suffused lavender at center.

Robert Broomfield—Pure snow-white. Of large size. A very free bloomer. Grand for cut-flowers.

Storm King—The most reliable show Dahlia to date. Color a pure white. Flowers produced on good stems, well above foliage. Free flowering. Sprouted tubers, each \$0.50

Eurica—Flowers medium to large, well-formed, nearly as round as Dewey. Yellow shaded salmon.

Yellow Duke—Long stemmed, free blooming, sort of primrose yellow. Sprouted tubers, each \$0.75

DeeLighted—Snow white, very large and free blooming. Sprouted tubers, each \$1.00

POMPON DAHLIAS

This class of Dahlia is of the show type, perfect in shape and make-up. Small in size, free and constant bloomers.

Little Beauty—A miniature of A. D. Livonia, as round as a ball, pure pink petals, fully quilled. Indeed, a little beauty.

Little Mars—Perfect little flowers, scarlet in color.

Prince Charming—Cream tipped purple, a very free bloomer.

Snowclad—A wonderful free bloomer, small pure white flower.

Speckled Beauty—Flowers are speckled red and white. Very fine.

Sprouted tubers, each \$0.25

PEONY FLOWERED DAHLIA

Queen Wilhemina—The flowers of this grand variety are snow white, with a center of golden-yellow. They look like huge butterflies on the plant. Sprouted tubers, each \$0.50

CACTUS DAHLIA

This class of Dahlia is known by their long, narrow, tubular twisted petals, and loved by all for their lovely deep colors and beautiful shadings.

California Beauty—Exceptionally free blooming and in every like a desirable cut flower. Its color is burnished copper, subdued by amber and warmed by a hint of coral in its shadowed depths.

Betty Austin—Of perfect form even to the end. Very free and continuous bloomer. The long slim stems holding their burden erect. Color rich rosy carmine, with rose reflex, yellow at base and tips. Very distinct and showy.

Sprouted tubers, each \$1.00

Countess of Lonsdale—An old but still popular variety. Free blooming and long lasting. Large and perfect. Color is amber and salmon pink.

Floradora—Deep, dark, rich, wine crimson, large and perfect, splendidly shaped flowers on long, upright stems.

Krimhilde—Graduating rose pink, the center petals changing to white, giving the flower a pink and white effect.

Libelle (New)—Color cerise, a free bloomer, long quilled petals.

Standard Bearer—Bright, pure scarlet, thick and full to the center, petals semi-quilled.

Strahlenkrone—A large and full flower, brilliant cardinal-red with purple center and rose reflex.

Zulu—Deep velvety purple, nearly black; a free bloomer, large blossoms.

Sprouted tubers, each \$0.50

Prince of Yellow—One of the best canary-yellow. Fine for cutting.

Queen of Hearts (New)—The best white cactus ever introduced; pure white shading to lemon-yellow at base of petals; very free bloomer.

Lavine—A beautifully formed flower of large size. Pure white with a trace of lavender at center.

Sprouted tubers, each \$0.25

DECORATIVE DAHLIAS

This class of Dahlias is a very free bloomer. Fine for cut flowers or landscape work. The flowers are usually large, open faced, with broad, flat petals. The bright open faces prove a great attraction.

Dakota—A fine large exhibition type, deep coral red, with coppery suffusion.

Dr. Tevis—A magnificent exhibition type, liberal and large sized, color a salmon rose suffused with old gold, shading to a center of golden apricot.

Mrs. I. Dever Warner—Rarely imperfect in form, of large size, its color is orchid-like or deep mauve pink. One of the finest of its class, very popular.

Sprouted tubers, each \$1.00

Douzan—Said to be the largest grown. We have had them 10 inches across. A lovely shade of orange; long, broad petals sometimes showing an open center.

Lavender Queen (New)—Large, finely shaped Dahlia of deep lavender, tall and imposing. Very free bloomer.

Midnight—Dark, velvety purple, nearly black. A great favorite.

Mina Burgle—This Dahlia is a California introduction. Color scarlet red, its form is perfect decorative type, its petals being broad and flat.

Oben—Old rose with yellow suffusion. A very fine flower.

Oregon Beauty—Profused, giant ball shaped bloom, intense oriental red, suffused with garnet. A golden sheen over all.

Sprouted tubers, each \$0.50

Jack Rose—A magnificent flower, color a crimson red with maroon shadings. Named for its counterpart among roses, the famous "General Jack."

Red Hussar—A very fine red Dahlia, a perfect ball, on long stems.

Sylvia—Flowers white in center shaded soft pink, overlaid with a tinge of lavender toward the edges. A favorite with the florists.

Victoria—Primrose yellow; free flowering and early.

Sprouted tubers, each \$.25

BULBS FOR FALL PLANTING

We will have tulips, hyacinths, crocus, narcissus, daffodills in bloom at our Nursery this spring; Madonna lilies this summer. See them in bloom and make your selections. We will book your order for fall delivery.

Currants per dozen 2.50

ASPARAGUS

Asparagus, Palmetto—2-yr old roots, selected. Per dozen 0.50

50 plants 1.00

RHUBARB

Rhubarb, Linnaeus—2-yr. old roots. Each 0.20

Per dozen 1.50

FRUIT TREES

APPLES

Delicious—This apple has been gaining popular favor from its introduction. Fruit is largely covered with bright red; flesh is fine-grained, crisp, and juicy with an aroma all of its own and unsurpassed in quality.

Duchess of Oldenburgh—A large, red-streaked, yellow apple, juicy, sub-acid and productive. The best and most popular summer apple.

Fameuse, or Snow—Too well-known to need description.

Jonathan—Medium red, extra quality, one of the chosen kind for winter evening eating. Juicy and aromatic.

McIntosh—Red, of highest quality. Ripens in October.

Northwestern Greening—Fruit is rich, yellow, and of good size. A long-keeper.

Northern Spy—This apple that is known by all, liked by old and young alike, is planted by everyone, but is somewhat tardy in coming into bearing.

Red Astrachan—Medium sized, beautiful deep crimson. A favorite eating and cooking apple. Ripens in August.

Tolman Sweet—Medium, yellow and red, rich and sweet. The most valuable apple for baking and otherwise fine.

Wagner—Medium sized, deep red in the sun, quality good. One of the earliest bearers, often setting fruit in the Nursery row.

Wealthy—A medium, round, deep red fruit. Handsome and of good quality. Season, September to November; with care will keep 'til mid-winter.

Yellow Transparent—An early apple of fine quality, flesh white, tender, juicy and good. It bears young, is productive and profitable.

Apple trees 5—7 feet, 2-year old, each \$0.75

CRAB APPLES

Transcendent—Jelly, carmine and yellow, juicy, acid, medium to large.

Crab Apple Trees 5—7 feet, each \$0.75

PEARS

Anjou—The best late fall and winter pear. Rich, buttery, melting.

Bartlett—The pear all others are judged by. A great bearer and very popular. Buttery, juicy, and high-flavored, choices for canning.

Clapp's Favorite—Large, juicy, and highly flavored. Yellow with dull red on the sunny side. One of the best, ripens last of August.

Kieffer—Large and handsome, with long-keeping and shipping qualities. Can be kept to mid-winter, a great canning pear.

Sheldon—Large, round and russet in appearance. Sweet, juicy and good to the taste. Highly satisfactory in every way.

Pear trees 5—7 feet, 2-year old, each \$1.00

PLUMS

Burbank—Productive to a fault, fruit about medium size. Quality fine and and sweet when fully ripened. A vigorous growing and spreading habit.

German Prune—Long, medium size, small pit, from which the flesh separates freely. Its sweet, rich flavor makes it valuable for canning.

Green Gage—Large, round-ovate; green marked with red in the sun, hangs long on the tree, one of the best. Ripens late September.

Lombard—Violet red, juicy and good. Exceedingly productive and hardy.

Yellow Egg—Very large, egg-shaped plum, excellent for canning.

Plum and Prune trees 5—7 feet, 2-year old, each \$1.00

CHERRIES

Sweet Cherries

Black Tartarian—Very large, black, juicy and sweet. Ripens last of June.
Gov. Wood—Large, light red, juicy, rich and delicious. Trees very productive.

Sour Cherries

Early Richmond—Medium size, dark-red, rich acid, juicy and good. The best. Ripens about the first of July.

English Morello—Fair sized, blackish-red, rich acid, juicy. This is a favorite for late canning.

Large, Late Montmorency—Large, red, solid flesh, rich and good. Ripens ten days to two weeks later than the Early Richmond.

Cherry Trees, 2-year old, No. 1, each \$1.00

GRAPE VINES

Grapes may be grown on a fence or trellis, against a building with a sunny side exposure. A few vines will furnish fruit to a large family. The choice of varieties is so great that the taste of all may be satisfied.

Black Grapes

Concord—The standard grape by which all others are judged. It is a hardy vine, very productive but late in ripening.

Worden—Berries and bunches are larger than Concord. Sweet and tender, ripens a week earlier than Concord. Fine for family use and nearby markets. Not so well suited for long shipping.

Moore's Early—A fine early grape for family use or nearby markets. Ripens fully two weeks earlier than Concord. Flavor is sweet and delicious.

Campbell's Early—Berries are large bunches, long and shouldered. Sweet, juicy and good. Has few small seeds, skin is firm, which insures the keeping quality of this grape.

Grapes, each \$0.25 Per dozen \$2.00

Red Grapes

Agawam—Berries large, sweet and aromatic. Ripens with Concord, but keeps much longer. It requires severe pruning as it is a strong grower.

Lucille—Bunches and berries are large. Flavor is delicious. It is a very productive variety and ripens earlier than Concord.

Delaware—Bunches and berries are small but compactly set. Color is a beautiful pink, flavor sweet and delicious. Ripens earlier than Concord.

Grapes, each \$0.25 Per dozen \$2.00

White Grapes

Green Mountain—An extra early grape from Vermont. Vine is vigorous and hardy. Bunches loose and long, berries medium sized. Sweet and of very fine quality.

Moore's Diamond—A leading white grape for home use or market. Ripens ten days ahead of Niagara. Flavor and quality excellent.

Niagara—Ripens with Concord. Bunches and berries are large, color is greenish white. Flavor spicy but delicious.

Grapes, each \$0.25 Per dozen \$2.00
